

Welcome Message from the Director, Manipal Institute of Technology (MIT)

Congratulations on exploring your learning options with Manipal Academy of Higher Education (MAHE), Manipal!

It is indeed commendable that at a time when the world is engaged with unprecedented challenges caused by the COVID 19 pandemic, you are making informed choices that shape your future. We assure you that by choosing MAHE - an Institute for Eminence, you are making the right choice and together we will create a better world for the future.

Manipal Institute of Technology (MIT) Manipal, one of the flagship institutions of MAHE, is all geared up for the journey ahead with the incoming students of 2020. Established in 1957, MIT, Manipal specializes in the fields of engineering, technology and innovation. Six decades of steady growth has seen MIT transform itself into an institution of global repute. Well-established alumni network and effective placement activities have reinforced the credibility of the institute in the professional arena. With a NIRF Rank of 45, MIT, Manipal has been consistently ranked among the top 1% engineering colleges in India.

Manipal being a residential campus with its diverse student population transforms the academic ambience into an international university town. With more than 20 major technical projects, more than 80 technical and cultural clubs, MIT is also known as campus of experiential learning. With this we have taken the learning experience beyond the classroom. Campus promotes unique mix of interdisciplinary & collaborative learning opportunities with participation from the sister institutes under the MAHE umbrella. Further, flexibility in terms of student mobility and research collaboration initiatives with top universities around the globe add to our strength.

We have 18 academic departments offering undergraduate, postgraduate, and doctoral degrees. With our vision '**Excellence in Technical Education through Innovation and Teamwork**' we aim to provide value-based quality education by providing emphasis on student-centric learning.

You are invited to go through the following links for a detailed experience of what MIT has to offer:

- [Institute video](#) created by Institute faculty utilizing inhouse resources
- [Video on major student projects](#) created by the students utilizing inhouse resources
- [Power Point Presentation](#) - an overview of MIT, Manipal

Keeping in view of the prevailing uncertainty caused by the pandemic, the institute has designed elaborate measures to receive and engage the students for the ensuing academic year. Special teams are constituted to plan all the aspects of health and safety of the students, whilst in the campus. If you have any query kindly reach us at welcomemit.2020@manipal.edu.

MIT, Manipal has been nurturing the best of creative and innovative minds since its inception and has churned out global leaders. I invite you to be a part of this legacy of MIT and create a better world for the people around us.

Regards

Dr. D. Srikanth Rao
